TRANSMITTAL LETTER

October 30, 2014

The Honorable Mayor
and Members of the City Council
City of Milford
Milford, Delaware

The Finance Department and City Manager's Office are pleased to submit the Annual Financial Report for the City of Milford, Delaware for the fiscal year ended June 30, 2014.

This report is published to provide the City Council, City staff, our citizens, our bondholders and other interested parties with detailed information concerning the financial condition and activities of the City government. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City.

To the best of our knowledge and belief the enclosed data is accurate in all material respects, and is organized in a manner designed to fairly present the financial position and results of operations of the City as measured by the financial activity of its various funds. We also believe that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

THE REPORT

The accompanying financial section includes a Management's Discussion and Analysis (MD&A), basic financial statements and combining and individual fund statements and schedules, as well as the independent auditor's report on the basic financial statements. Beck, Villata & Co., P.C., Certified Public Accountants, has issued an unmodified ("clean") opinion on the City's financial statements for the year ended June 30, 2014. The independent auditor's report is located at the front of the financial section of this report.

The MD&A is a narrative introduction, overview, and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement and should be read in conjunction with the MD&A. The City of Milford's MD&A can be found immediately following the report of the independent auditors.

The Financial Section described above is prepared in accordance with generally accepted accounting principles for governments as prescribed by the Governmental Accounting Standards Board (GASB) and other professional associations, as applicable.

CITY PROFILE

Location

The City of Milford is the sixth largest city in population in the State of Delaware, serving over 9,000 residents within a rapidly growing corridor along U.S. Route 113/DE Route 1 in Kent and Sussex Counties. Located on the Mispillion River, within both Kent and Sussex Counties, the City is approximately 95 miles from Philadelphia, Pennsylvania, 85 miles from Baltimore, Maryland, and 100 miles from Washington, D.C. Locally, the City is 19 miles south of Dover, the State Capital.

The City is a home rule city operating under the Council-Manager form of government. The City Council is comprised of the Mayor and eight Council members, who enact local laws, determine policies and adopt the annual budget. The City Manager is appointed by the City Council and is responsible for the daily management of the City. The Basic Financial Statements of the City include all government activities, organizations and functions for which the City is financially accountable as defined by the GASB. Based on these criteria no other governmental organizations are included in this report.

FINANCE

Services Provided

The City provides to its citizens those services that have proven to be necessary and meaningful and which the City at the least cost can provide. Major services provided under general government and enterprise functions are: police protection, water and sewer services, electric services, sanitation services, park and recreational facilities, street improvements and general administrative services.

Accounting System and Budgetary Control

The City's accounting records for general governmental operations are maintained on a modified accrual basis with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for the City's utilities and other proprietary activities are maintained on the accrual basis.

In developing and maintaining the City's accounting system, consideration is given to the adequacy of the internal control structure. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the City's informal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The City charter provides that the City Council shall adopt the annual budget prepared by City Management. This budget is reviewed by the City Council and is formally adopted by the passage of a budget ordinance. The City Manager is authorized to transfer budgeted amounts between the items and departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.

Budgetary control has been established at the general fund level. Financial reports are produced showing budget and actual expenditures by line item, and are distributed monthly to City departmental and divisional management and to others upon request.

Individual line items are reviewed and analyzed for budgetary compliance. Personnel expenditures are monitored and controlled at a position level and capital expenditures are monitored and controlled item by item. Revenue budgets are reviewed monthly.

OTHER INFORMATION

Independent Audit

The City Charter requires an annual audit of the accounts, financial records and transactions of the City by independent certified public accountants selected by the City Council. This requirement has been complied with, and the independent auditor's report has been included in this report. Additionally, the City of Milford's Director of Finance hears and reviews all recommendations made by the independent auditors.

Acknowledgments

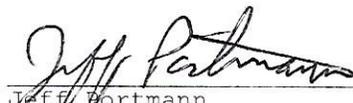

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Department. Appreciation is expressed to City employees throughout the organization, especially those employees who were instrumental in the successful completion of this report.

We would like to thank the members of the City Council for their interest and support in planning and conducting the financial operation of the City in a responsible and progressive manner.

Respectively submitted,

Richard Carmean
City Manager

INDEPENDENT AUDITOR'S REPORT

To the Mayor and City Council
City of Milford, DE

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Milford, DE as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the City of Milford, DE, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-13 and page 20 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Milford, DE's basic financial statements. The introductory section is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2014, on our consideration of the City of Milford, DE's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Milford, DE's internal control over financial reporting and compliance.

CITY OF MILFORD, DELAWARE

Management's Discussion and Analysis

For the Year Ended June 30, 2014

Amounts in Thousands Unless Stated Otherwise

(Unaudited)

As management of the City of Milford, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities and financial position of the City for the fiscal year ended June 30, 2014. In the broadest context, the financial well-being of a government lies in the underlying wealth and willingness of its citizens and property owners to pay adequate taxes combined with the vision of the government's elected and appointed leadership to spend those taxes strategically so that the City's tax base, service levels, City assets and the City's desirability will be maintained not just for the current year but well into the future. Financial reporting is limited in its ability to provide this "big picture" but rather focuses on financial position and changes in financial position. In other words, are revenues and or expenses higher or lower than the previous year? Have net assets (containing both short and long term assets and liabilities) or fund balances (the current "spendable" assets less current liabilities) of the government been maintained? We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal (pages i-iii of this report) as well as information on the City's annual budget and other community information found on the City's website at www.cityofmilford.com. It should be noted that the Independent Auditor's Report describes the auditor's association with the various sections of this report and that all of the additional information from the website and other City sources is unaudited and has not been updated for events that may have occurred subsequent to the issuance of the respective report.

IN BRIEF

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by approximately \$67.2 million (net position). This number must be viewed in the context that a significant portion of the City's net position, \$31 million (46%) are invested in capital assets, net of related debt, and that most capital assets in government do not directly generate revenue nor can they be sold to generate liquid capital. Those net assets restricted for specific purposes total \$6.3 million (9.3%). The remaining \$29.9 million are unrestricted net assets and may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies. Unrestricted net position decreased by approximately \$8.2 million in fiscal year 2014 mainly due to investments made in capital assets.

CITY OF MILFORD, DELAWARE

Management's Discussion and Analysis

For the Year Ended June 30, 2014

Amounts in Thousands Unless Stated Otherwise

(Unaudited)

- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$7.7 million. Within this total \$1.2 million is restricted by specific legal requirements and \$2.1 million has been committed and assigned to specific types of expenditures, The remaining \$4.4 million is unassigned fund balance in the general fund and can be used for any lawful purpose.
- The City's liabilities decreased by \$589 thousand due primarily to debt service payments made on the city's obligations.
- The City has seen certain revenues stagnate or decline over the last several years due to the economic conditions and has moved aggressively to reduce expenditures accordingly. The City also benefits from strong fund balances and conservative financial practices. The Economic Factors and Next Year's Budget section on the last page of this discussion provide additional information on the subject.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of four components: 1) government wide financial statements, 2) fund financial statements 3) notes to the financial statements and 4) required supplementary information which includes this management's discussion and analysis. In addition to the basic financial statements, this report also contains other supplementary information as listed in the Table of Contents.

Government Wide Financial Statements - The government wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. The Statement of Net Position presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. The Statement of Activities presents information showing how the City's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences.)

CITY OF MILFORD, DELAWARE

Management's Discussion and Analysis

For the Year Ended June 30, 2014

Amounts in Thousands Unless Stated Otherwise

(Unaudited)

Both of the government-wide financial statements distinguish between functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government and administration, public safety, public works, and cultural and recreation. The business-type activities of the City include water and sewer, electric and sanitation operations. The government-wide financial statements can be found on pages 14 and 15 of this report.

Fund Financial Statements - A fund is a self-balancing set of accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories-governmental funds and proprietary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Non-financial assets such as governmental buildings, roads, drainage ways, park land and long term liabilities such as bonds payable or long term liabilities that will not be paid with current assets are excluded. Such information may be useful in evaluating a government's near term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Proprietary Funds - The City maintains two types of proprietary funds. Enterprise funds are presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, electric and sanitation operations.

•
CITY OF MILFORD, DELAWARE

Management's Discussion and Analysis
For the Year Ended June 30, 2014

Amounts in Thousands Unless Stated Otherwise
(Unaudited)

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses its internal service funds to account for its fleet services, billing services and city hall building maintenance cost allocation programs. Because these services predominantly benefit business-type rather than governmental functions, they have been included within business-type activities in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water, Sewer, Electric, and Sanitation funds, since all are considered to be major funds of the City. All internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. The basic proprietary fund financial statements can be found on pages 21 to 23 of this report.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government wide and fund financial statements. The notes to the financial statements can be found on pages 25 through 43.

Other Information - In addition to the basic financial statements and accompanying notes, the basic financial statements contain required supplementary information including this discussion and analysis.

GOVERNMENTAL-WIDE FINANCIAL ANALYSIS

As noted earlier, net position and especially net position by category may serve over time as a useful indicator of a government's financial position. In the case of the City, total net position was \$67.2 million as of June 30, 2014.

The largest portion of the City's net position, \$31 million (46.1%) reflects its investments in capital assets (e.g., land, building, equipment, improvements and infrastructure), less any debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide service to citizens; consequently these assets are not available for future spending, and with exception of business type assets, do not generate direct revenue for the City.

They do represent, however, an obligation on the part of the City to maintain these assets into the future. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

CITY OF MILFORD, DELAWARE

Management's Discussion and Analysis

For the Year Ended June 30, 2014

Amounts in Thousands Unless Stated Otherwise

(Unaudited)

An additional portion of the City's net position \$6.3 million (9.4%) represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net position of \$30 million (44.5%) may be used to meet the government's ongoing obligations to citizens and creditors. The current and other assets increased in the Governmental activities by \$149 thousand and decreased in the Business type activities by \$5 million. The decrease in the current and other assets in its Business-type activities is primarily due to investment in capital assets. The City's long term liabilities increased by \$1 million.

Overall the City had an increase in net position of \$2 million (3.1%).

Governmental Activities - Governmental activities net position increased by \$592 thousand. Net position invested in capital assets, net of related debt increased by \$859 thousand or 6.4%. Unrestricted net position decreased by \$458 thousand or 7.1%.

Excluding transfers from business-type activities and special items, total revenues for governmental activities decreased from the previous year by \$48 thousand. General revenue (excluding transfers and special items) had a net increase of \$297 thousand or 6.5%. In Program Revenues, fees and fines decreased by \$82 thousand and operating grants and contributions increased by \$29 thousand. Total expenses for governmental activities decreased by \$132 thousand or 1.7%.

Business-Type Activities - Net position from business-type activities increased by \$1.4 million, or 3.1% from \$44.5 million to \$45.9 million. Net position invested in capital assets, net of related debt, increased by \$6.3 million. Unrestricted net position decreased by \$7.9 million, while restricted net position increased by \$3 million from the previous year.

For the Year Ended June 30, 2014

Amounts in Thousands Unless Stated Otherwise

(Unaudited)

Financial Analysis of the Government's Funds

Governmental Funds - The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balances may serve as a useful measure of a government's net resources available for spending in the next fiscal year. At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$7.7 million. Within this total \$1.2 million is restricted by specific legal requirements, for street improvements, and \$2.1 million has been committed and assigned to specific types of expenditures. The remaining \$4.4 million is unassigned fund balance in the general fund and can be used for any lawful purpose. In the general fund, the City originally budgeted a fund balance decrease in the current year of \$40 thousand prior to the use of prior balances and reserves. The actual general fund balance increased by \$122 thousand as the result primarily of increases in property taxes and a combination of decreases in public safety costs and increase in capital outlays. Actual general fund expenditures were within 1.3% of total budgeted expenses.

Proprietary Funds - The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the respective enterprise funds are \$8.3 million for water, \$4.2 million for sewer, \$11 million for electric and \$540 thousand for Sanitation. The total of all enterprise fund net position exclusive of the internal service funds at the end of the fiscal year was \$45.9 million. Change in net position for enterprise funds in 2014 were an increase of \$1.5 million in the water, an increase of \$282 thousand in the sewer, an increase of \$409 thousand in the electric and a decrease of \$46 thousand in the sanitation fund.

General Fund Budgetary Highlights - The City made revisions to the original appropriations approved by the City Council. Overall these changes resulted in an increase in budgeted expenditures from the original budget of 3.2% or \$258 thousand. Management's estimate of the General Funds budgeted revenues increased \$158 thousand or 1.9% from original budget based on year to date experience.

Amounts in Thousands Unless Stated Otherwise
 (Unaudited)

DEBT ADMINISTRATION

At the end of the current fiscal year, the City had a total bonded debt and note obligations of \$19,036 million, all backed by the full faith and credit of the government.

**Outstanding Debt at Year End
 Bonds and Notes Payable**

	Government Activities		Business-Type Activities		Total	
	<u>2013</u>	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>	<u>2014</u>

Kent County Note	-	-	1,288	1,265	1,288	1,265
Total	<u>\$ 152</u>	<u>\$ 112</u>	<u>\$ 19,786</u>	<u>\$ 18,924</u>	<u>\$ 19,938</u>	<u>\$ 19,036</u>

During the fiscal year, the City's total debt decreased by \$902 thousand or 4.5%, largely the result of scheduled debt payments during the year. There were additional borrowings in connection with capital projects under agreement with the United States Department of Agriculture (USDA) as well as under a Delaware State Revolving Loan agreement.

The City's General Obligation Bond rating is AA- as rated by Standard & Poor's. Additionally, several of the City's bonds are insured.

Additional information on the City's long term debt can be found in footnote 10 on pages 38 to 41 of this report.

CITY OF MILFORD, DELAWARE

Management's Discussion and Analysis
For the Year Ended June 30, 2014
Amounts in Thousands Unless Stated Otherwise
(Unaudited)

CAPITAL ASSETS

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2014, amounts to \$49.8 million (net of accumulated depreciation). This investment in capital assets includes land, building, equipment, intangibles, improvements, and infrastructure and construction in progress. The total increase in the City's investment in capital assets, net of accumulated depreciation, for the current fiscal year was \$7 million or 16.2%. Additional information on the City's capital assets can be found in note 9 on pages 36 and 37 of this report.

Major capital asset events during the current fiscal year included the following: acquisition of a new radio tower and radios for \$209 thousand; public safety vehicles for \$68 thousand; utility system infrastructure improvements totaling \$2.8 million; land additions totaling \$609 thousand, including \$404 thousand for the "goat island" nature park; the continuation of the new electric substation for \$2.2 million; the purchase of the PNC Bank property, and some preliminary renovations totaling \$670 thousand which will eventually become the city's new billing office.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

In the fiscal year 2015 Budget, General Fund revenues are budgeted to increase by 3.6% from the fiscal year 2014 final budget. In this coming fiscal year, the City looks forward to continued signs of improvement from the recent economic downturn. Rates charged for services remained unchanged in order to operate the city's four enterprise funds consisting of water, sewer, electric and sanitation. The city's electric service has added a new substation to better serve our customers. The city has also been aggressively pursuing the removal of groundwater from our sewer lines which should result in a reduction of expenses to process the sewer discharge at the Kent County sewer processing plant.

In September 2015, subsequent to year end, the City bought back it's 2005 Electric Bond issue. It is estimated that this will result in a reduction of annual debt payments of \$295,000.

REQUEST FOR INFORMATION

The financial report is designed to provide our citizens, customers, investors and creditors with general overview of the City's finances. If you have questions about this report or need any additional information, contact the Department of Finance, Attention: Finance Director, 10 SE 2nd Street, Milford, DE 19963 or call 302-424-5141 or email: jportmann@milford-de.gov.

**CITY OF MILFORD, DE
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND
BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2014**

Net change in fund balances - total governmental funds:	\$ (65,957)
Amounts reported for Governmental Activities in the Statement of Activities are different because:	
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenses in the statement of revenues, expenditures and changes in fund balance.	(18,800)
Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. This is the amount by which capital outlays of \$1,184,412 exceeded depreciation expense of \$549,747 in the current period.	634,665
Governmental funds report repayment of bond principal as an expenditure, In contrast, the Statement of Activities treats such repayments as a reduction in long-term liabilities.	<u>42,159</u>
Change in net position of governmental activities	<u><u>\$ 592,067</u></u>

The accompanying notes are an integral part of these financial statements.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Introduction

The City of Milford, Delaware (the "City"), operates under a Council-Manager form of government and provides the following services as authorized by its charter adopted on May 24, 1977: public safety (police), highways and streets, sanitation, health and social services, electric, water, parks and recreation, public improvements, planning and zoning, and administrative services.

The accounting and reporting policies of the City relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America (GAAP) applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB).

The accounting and reporting framework and the more significant accounting policies and practices are discussed in subsequent sections of this Note. The remainder of the notes is organized to provide explanations, including required disclosures, of the City's financial activities for the year ended June 30, 2014.

Financial Reporting Entity

The City's basic financial statements include the accounts of all City operations. The criteria for including organizations as component units within the City's reporting entity, as set forth in Section 2100 of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the City holds the corporate powers of the organization
- the City appoints a voting majority of the organization's board
- the City is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the City
- there is fiscal dependency by the organization on the City

Based on the aforementioned criteria, the City has no component units.

Government-Wide and Fund Financial Statements

The government-wide financial statements (statement of net position and statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and inter-governmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Government-Wide and Fund Financial Statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include 1) charges to customers who directly benefit from goods or services provided by a given function or activity and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided by governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Financial resources used to acquire capital assets are capitalized in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as another financing source. Amounts paid to reduce long-term debt of the City are reported as a reduction of the related liability, rather than as an expenditure in the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter (within sixty days) to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt-service expenditures are recorded only when payment is due. Also, compensated absences are recorded as expenditures when paid.

Sales taxes, franchise taxes, permits and fees, recreation fees, fines and court fees, other miscellaneous revenues and earned but unreimbursed state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Property taxes are measurable as of the date levied (assessed) and are recognized as revenues when they become available. Available means when due, or past due, and received within the current period or collected soon enough thereafter to be used to pay liabilities of the current period. All other revenues are considered to be measurable and available only when the City receives cash.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The City reports the following governmental funds:

General Fund - The general fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - The special revenue funds account for revenues derived from earmarked revenue sources. Separate self-balancing funds are established to account for each restricted special revenue source.

Parks and Recreation Fund - The parks and recreation fund accounts for revenues derived from activities provided by the City's parks and recreation department, which include youth and adult sports leagues, summer camps and clinics, special events and festivals as well as fund raising activities.

The City reports the following proprietary funds:

Enterprise Funds - The Enterprise Funds of the City include the electric, water, sewer and trash funds. Enterprise funds are used to account for operations (a) which are financed and operated in a manner similar to private business enterprises; where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body had decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Fund - Consists of three internal funds which are used to account for the financing of goods and services provided by one department to other departments of the City on a cost-reimbursement basis.

The City reports the following fiduciary fund types:

Agency Fund - The agency fund accounts for assets held by the City in a trustee capacity for fees collected on behalf of Kent County and the Carlisle Fire Department. In addition, a trust fund was established by an individual during fiscal 2013 to benefit Kent County residents by offsetting individual tax bills in the future. The balance of the fund as of June 30, 2014 was \$371,594.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

**Measurement Focus, Basis of Accounting and Financial Statement Presentation
(Continued)**

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in governmental funds. Encumbrances as of the year end are reported as reservations of fund balance since they do not constitute expenditures or liabilities but serve as authorization for expenditures in the subsequent year. As of the end of the period, the City had no such encumbrances.

Budgets and Budgetary Accounting

The City Council follows these procedures in establishing the budgetary data reflected within the financial statements:

- (1) In accordance with the City Charter, prior to June 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them for the upcoming year, along with estimates for the current year. The City Charter requires that the budget be submitted in summary form. In addition, more detailed line item budgets are included and provided for administrative control.
- (2) Public hearings are conducted to obtain taxpayer comment.
- (3) Prior to June 30, the budget is legally enacted through passage of an ordinance.
- (4) The City Manager is required by the City Charter to present a monthly report to the City Council explaining any variances from the approved budget.
- (5) Formal budgetary integration is employed as a management control device during the year for the general fund.
- (6) The budget for the general fund is adopted on a basis consistent with generally accepted accounting principles (GAAP) as applicable to governments.
- (7) The budgets for the special revenue fund are approved on a program by program basis by the funding agencies.
- (8) Budgetary amendments are approved by City Council as required throughout the year. If revenues in excess of those estimated in the budget become available, the Council, by ordinance, may make supplemental appropriations for the year up to the amount of such excess.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash, checking and money market accounts generally maturing in three months or less.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Receivables

Receivables are shown net of the allowances for estimated uncollectible accounts. The allowance for uncollectible accounts is based upon historical data established according to experience and other factors which in the judgment of City officials should be recognized in estimating possible losses. Management believes that they have adequately provided for future probable losses.

Interfund Receivables/Payables

Advances between funds are accounted within the appropriate interfund receivable and payable accounts. These advances (reported as "due from/to other funds") are considered "available spendable resources."

Inventory

Inventory is carried at cost for the water fund, and at replacement cost for the electric fund, and is determined using the first-in, first out (FIFO) method.

Inventory in the general fund consists of gasoline and diesel fuel held for consumption. Inventory in the internal service fund consists of garage and meter supplies held for consumption. The inventory acquisitions are recorded in the inventory accounts initially and charged to expenditures when used. The cost value of such inventory has been presented on an average cost basis.

Fixed Assets

Fixed assets which include land, buildings, improvements, equipment, vehicles and infrastructure assets, consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage and lighting systems, are reported on the applicable governmental or business-type activities columns in the government-wide financial statements and the proprietary fund financial statements. Fixed assets are recorded at historical cost, if purchased, and at fair market value, if donated. The capitalization threshold for all fixed assets is \$5,000. No dollar threshold is set for land. Fixed asset depreciation is recognized using the straight-line method over the estimated useful lives.

Compensated Absences

A maximum of 30 days of vacation and 130 days of sick leave may be accumulated by each employee except for those hired before 1992, whose carry-over is not limited. The City accrues a liability for compensated absences which meet the following criteria:

- The City's obligation relating to employees' rights to receive compensation for future absences is attributable to employees' services already rendered.
- The obligation relates to rights that vest or accumulate.
- Payment of the compensation is probable.
- The amount can be reasonably estimated.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Compensated Absences (Continued)

In accordance with the above criteria, the City has accrued a liability for vacation and sick pay which has been earned but not taken by City employees. For governmental funds, the liability for compensated absences is reported as a long term liability in the government-wide financial statements since it is anticipated that none of the liability will be liquidated with expendable available financial resources. The liability for compensated absences is recorded in proprietary fund types as an accrued liability in accordance with Statement of Financial Accounting Standards No. 43, Accounting for Compensated Absences.

Long-Term Liabilities

In the government-wide financial statements, and in the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are recorded net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and are amortized over the life of the related debt. In the fund financial statements, governmental fund types recognize bond premium and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Government-wide and Proprietary Fund Net Position:

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets net of accumulated depreciation and the outstanding balances of any borrowing spent for the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City only has one item that qualifies for reporting in this category. It is the deferred charges on refundings reported in the government-wide statement of net position. This deferred charge results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding bond.

In addition to liabilities, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents and acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City did not have any items that qualified for reporting in this category.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

- **Non-spendable** - Amounts that cannot be spent either because they are in a non-spendable form or because they are legally or contractually required to be maintained intact.
- **Restricted** - Amounts that can be spent only for specific purposes because of the City Charter, the City code, state or federal laws, or externally imposed conditions by grantor or creditors.
- **Committed** - Amounts that can be used only for specific purposes determined by a formal action by City Council ordinance or resolution. This included the Budget Reserve Account.
- **Assigned** - Amounts that are designated by the Mayor for a particular purpose but are not spendable until a budget ordinance is passed or there is a majority vote approval (for capital projects or debt service) by City Council.
- **Unassigned** - All amounts not included in other spendable classifications.

Inter-Fund Transactions

During the course of normal operations, the City has transactions between funds to subsidize operations in certain funds, to allocate administrative costs, to construct assets, to distribute grant proceeds, etc. These transactions are generally reflected as operating transfers, which are transfers from a fund authorized to receive certain revenues to the fund through which the resources are to be expended.

Interest Capitalization

Interest costs incurred for the acquisition and/or construction of capital assets are capitalized based on the guidelines established by the Statement of Financial Accounting Standards No. 34, Capitalization of Interest Cost.

The interest capitalization period begins when the following conditions are present:

- Expenditures for the capital asset have been made.
- Activities that are necessary to get the capital asset ready for its intended use are in progress.
- Interest expense is being incurred.

The amount of interest expense to be capitalized is based on the weighted-average amount of accumulated expenditures for the period multiplied by the interest rate for the obligation incurred specifically to finance the construction of capital assets. No capitalizable interest was incurred during the year ended June 30, 2014.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS:

Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Assets.

The governmental fund balance sheet includes a reconciliation between total governmental fund balances and net assets of governmental activities in the government-wide statement of net assets. This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets.

Capital Asset Differences

When capital assets (land, building, improvements and equipment) are purchased or constructed for use in governmental fund activities, the costs of those assets are reported as expenditures in the governmental funds. However, these costs are reported as capital assets in the statement of net assets. The details of these differences are presented below:

Land, Infrastructure and Other Assets	\$13,676,569
Building and Improvements	4,260,185
Equipment and Furniture	5,675,739
Construction in Progress	1,184,923
Less: Accumulated Depreciation	<u>(10,466,692)</u>
Net Capital Asset Difference	<u>\$14,330,724</u>

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

**NOTE 2 - RECONCILIATION OF GOVERNMENT-SIDE AND FUND FINANCIAL STATEMENTS
(CONTINUED):**

**Explanation of Certain Differences between the Governmental Fund Balance Sheet
and the Government-Wide Statement of Net Position (Continued).**

Long-Term Liability Differences

Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental fund balance sheet. All liabilities (both current and long-term) are reported in the statement of net assets. The details of these differences are presented below:

Long-Term Portion of Compensated Absences	\$ 568,124
Current Portion of Bonds Payable	17,037
Long-Term Portion of Bonds Payable	<u>95,680</u>
Total Current and Long-Term Liability Differences	<u>\$ 680,841</u>

Explanation of certain differences between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-Wide Statement of Activities.

The governmental fund financial statements include a reconciliation between changes in fund balances in the governmental funds and changes in net assets in the government-wide statement of activities. The difference primarily results from the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental fund financial statements.

Capital Outlay Differences

Capital Outlays are reported as expenditures in the statement of revenues, expenditures and changes in fund balances. They are reported as capital assets, with the costs allocated over the useful lives of the assets, as depreciation, in the statement of activities. The details of these differences are reported below:

Capital Outlay	\$1,184,412
Depreciation	<u>(549,747)</u>
Net Difference	<u>\$ 634,665</u>

Long-Term Debt Issuance and Repayment Differences

When long-term debt is issued, it is reported as an other financing source. Repayments are reported as expenditures in the statement of revenues, expenditures and changes in fund balance. Issuance of debt is reported as a long-time liability and repayments are reported as reductions of those liabilities in the statement of activities. The detail of this difference is reported below:

Principal Repayment	<u>\$ 42,159</u>
---------------------	------------------

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 3 - FINANCIAL INSTRUMENTS

The City has a number of financial instruments. The City estimates that the fair value of all financial instruments as of June 30, 2014, does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheet and statement of net assets.

NOTE 4 - REAL ESTATE TAXES

The tax on real estate in the City area for the fiscal year 2014 was [46 mills (\$1,000 of assessed valuation)] as levied by the City Council. The City bills and collects its own real estate taxes. Delinquent taxes are lienied by the City. The schedules of real estate taxes levied for the fiscal year 2011 are:

- July 1 - Levy Date (effective date of enforceable lien)
- August 1 - September 30 - Face Payment Period
- October 1 - 1% Penalty for each subsequent month not paid

NOTE 5 - IMPACT FEES

All new water, sewage, and electric services within the City of Milford are required to pay a one-time "impact fee." The purpose of the fee is to compensate for the impact of new users to the existing water and sewage systems, in order to provide for future expansion. All impact fees collected are restricted for capital improvements, as specified and approved by City Council that will be required as the result of population growth. The cost of the impact fee for water, sewage, and electric for the year ended June 30, 2014 was \$2,335, \$1,234, and \$600 per Estimated Discharge Usage (EDU), respectively.

The City has recorded as revenue in the proprietary funds Statement of Revenues, Expenses and Changes in Net Assets and in the government-wide Statement of Activities the impact fee monies, as required by GASB No. 33. Resulting restricted net assets at June 30, 2014 from impact fees is \$2,269,148.

NOTE 6 - INTERFUND TRANSACTIONS

During the course of normal operations, the City has numerous transactions between funds including expenses or expenditures and transfers of resources primarily to provide services. The financial statements of the governmental and proprietary fund types generally reflect such transactions as transfers. Transfers that are not considered operating or residual equity transfers give rise to individual fund, interfund receivables and payables. As of June 30, 2014, there are no outstanding interfund balances.

NOTE 7 - INTERGOVERNMENTAL RECEIVABLES

Amounts due from other governmental units represent receivables for revenues earned by the City or collections made by another governmental unit on behalf of the City.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 8 - CASH AND INVESTMENTS

Custodial credit risk is the risk that in the event of bank failure, the City's deposits may not be returned to it. The City does not have a formal deposit policy for custodial credit risk. Deposits are classified as *Category 1* if they are fully insured, registered or held by the City's agent in the City's name. Deposits would be classified as *Category 2* for those deposits which are collateralized with securities held by the pledging financial institution's trust department or agent(s) in the City's name, or *Category 3* for those deposits which are not collateralized, including bank balances that are collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the City's name. As of June 30, 2014, all of the City's bank balances were Category 1 deposits, and the financial institution balances were the same as the carrying amounts.

The City's investments are categorized according to the level of credit risk assumed as of the balance sheet date. *Category 1* includes investments that are insured, registered or are held by the City's agent in the City's name. *Category 2* includes uninsured and unregistered investments held by the counterparty's trust department or agent in the city's name. *Category 3* includes uninsured and unregistered investments held by the counterparty, its trust department or its agent but not in the City's name. As of June 30, 2014, the City's investments consist of the following:

<u>Description</u>	<u>Category</u>	<u>Amount</u>	
		<u>Market</u>	<u>Carrying</u>

Total	<u>\$14,505,000</u>	<u>\$ 4,874,413</u>	<u>\$19,379,413</u>

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. The City is required to compute, at the time taxes are levied, the rate of tax required to provide a fund to pay interest and principal at maturity. The City is in compliance with this requirement.

In September 2014, subsequent to year end, the City bought back it's 2005 Electric Bond Issue (see Note 13).

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 10 - LONG-TERM DEBT OBLIGATIONS (CONTINUED)

General Obligation Bonds (continued)

The 1992 General Obligation Enterprise Bonds, Series A, represents the remaining principal portion, net of unamortized appreciation of \$649,349 with variable interest rates of 5.50% to 6.95%. The bonds were used to defease in-substance a portion of the 1989 Bond Issue and to finance additional waste water system improvements. The general obligation bonds have various maturity dates through April 2018.

On June 1, 2005, the City issued \$3,790,000 in General Obligation Refunding Bonds with the average rate of interest not to exceed 4.50%. The City issued the bonds to advance refund the total amount outstanding under the Series of 2000 General Obligation Bonds of \$3,580,000 with interest rates ranging from 4.70% to 5.65% per annum. The advanced refunding reduced total debt service payments over the then remaining term of 20 years by approximately \$384,000.

On June 30, 2011, the City issued \$9,000,000 in General Obligation Bonds in connection with planned electric and sewer capital projects, with interest rates ranging from 2.0% to 4.4%. The bonds are scheduled to mature January 1, 2037. Annual principal payments commenced January 1, 2013, with semi-annual interest payments commencing January 1, 2012. The bonds had an original issue premium of \$108,620, the unamortized portion of which is included in the balance reflected in the financial statements at June 30, 2014.

On June 30, 2011, the City issued \$3,720,000 in General Obligation Bonds with interest rates ranging between 2.0% and 3.0%. The City issued the bonds in order to currently refund \$3,770,000 of outstanding 2002 Refunding Bonds with interest rates ranging from 3.2% to 4.35%. The Series B 2011 General Obligation Bonds are scheduled to mature January 1, 2021, with annual principal payments commencing January 1, 2012. Semi-annual interest payments also commenced January 1, 2012. The current refunding reduced total debt service payments over the next 10 years by \$276,000. This resulted in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$259,000.

Note Payable - USDA

In June 2013, the City issued bonds in the amount of \$5 million in connection with its Southeast Water Expansion project. The funding for the project is being provided by the United States Department of Agriculture (USDA) under the federal direct loan for water and waste disposal systems program. Under the program, the City receives proceeds from the loan only after incurring project expenditures. The balance of the loan as of June 30, 2014 is \$1,008,776, which represents total expenditures incurred on the project to date of \$1,174,325, less principal payments made. Under the terms of the note, the City is making quarterly payments in the amount of \$46,500 commencing September 28, 2013, which include interest calculated at a rate of 2% on the balance outstanding. The agreement with the USDA also calls for the City to utilize the remaining unliquidated funds for the project by May 31, 2015.

Note Payable - Kent County

In connection with previous sewer problems, Kent County was forced to construct a new sewer line, a significant portion of which runs through the City of Milford. The county issued bonds to cover the cost, and it was agreed that the City would pay for the portion of the line that runs through its jurisdiction. Under the agreement, the City is paying the County in quarterly installments of \$12,735, which include interest at a rate of 2.25% per annum. The balance of the obligation as of June 30, 2014 is \$1,265,835 and is scheduled to mature November 10, 2050. The total cost to the City for the line was \$1,298,871, and was recorded as a period expense for the current fiscal year ended June 30, 2013, as the City does not have title to the asset.

NOTE 10 - LONG-TERM DEBT OBLIGATIONS (CONTINUED)

Notes Payable - State of Delaware

In connection with its Wastewater Collection System Expansion Project, the City entered into a financing agreement with the Delaware Water Pollution Control Revolving Fund, acting by and through the Delaware Department of Natural Resources and Environmental Control, a public agency of the State of Delaware. Under terms of the agreement, interest only payments were due semi-annually at a rate of three percent (3%) per annum on the amounts that had been advanced to fund the project. Semi-annual payments of principal and interest (at 3%) are due through scheduled maturity of July 1, 2022. The note is secured by the full faith and credit of the City.

During fiscal year 2011, the City received additional funds under this program in connection with the second part of its System Expansion Project which is still in progress. The balance on this related note as of June 30, 2014 is \$942,919. Semi-annual payments commenced January 1, 2013 which include interest calculated at an annual rate of 2.0%. The note is scheduled to mature July 1, 2030.

Aggregate maturities of these two notes are as follows:

Year Ending <u>June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2015	\$ 138,270	\$ 41,100	\$ 179,370
2016	141,962	37,408	179,370
2017	145,757	33,613	179,370
2018	149,656	29,714	179,370
2019	153,665	25,705	179,370
2020-2024	599,913	69,603	669,516
2025-2029	305,014	23,501	328,515
2030	<u>64,730</u>	<u>973</u>	<u>65,703</u>
	<u>\$1,698,967</u>	<u>\$261,617</u>	<u>\$1,960,584</u>

The City has also received funds from the State of Delaware in connection with its Washington Street Water Treatment Facility Replacement Project. The funds are being provided by the DE Drinking Water State Revolving Fund only as expenditures are incurred by the City and approved by the State. Interest only payments commenced September 1, 2012 and are due semi-annually at 1% per annum. Upon completion of the project, if the City has complied with all of the requirements of the State, thirty-five percent of the amounts advanced will be forgiven, and the remaining balance will be amortized over a twenty year period with interest at 1% per annum. The balance outstanding as of June 30, 2014 is \$556,541, which represents the total amount of advances received on the project, net of \$45,000 received which was forgiven during fiscal 2014.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 11 - PENSION PLAN

County and Municipal Pension Plan

Effective January 1, 2005, City Council elected, under provisions of the Delaware Code, to participate in the County and Municipal Police/Firefighter and the General Employees Retirement Funds. In connection with this election, the City agreed to fund prior service cost up to a maximum of fifteen (15) years for all eligible employees. Such funding was provided for from the City's reserves in its Water and Sewer Funds, as well as from assets of its existing retirement fund.

Along with the prior service cost, the City is obligated to pay the ongoing regular contribution rate (6.62% for fiscal year 2014). For sworn officers, the contribution rate was 15.52% for fiscal year 2014. These contribution rates are expected to gradually increase over the next several years. In addition, eligible employees are required to contribute 3% of their earnings in excess of \$6,000 and an additional 2% of their earnings in excess of the Social Security wage base.

NOTE 12 - COMMITMENTS AND CONTINGENCIES

In the normal course of business, there are outstanding various commitments and contingent liabilities in addition to the normal encumbrances for the purchase of goods and services. The City does not anticipate losses as a result of these transactions.

Government Grant/Award Programs

The City participates in a number of federal and state assisted programs. These programs are subject to program compliance audits by the grantors or their representatives. Accordingly, the City's compliance with applicable program requirements will be established at some future date. The amount, if any, of expenditures, not already disclosed, which may be disallowed by the granting agencies cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

NOTE 13 - SUBSEQUENT EVENTS

On September 2, 2014, the City bought back its 2005 Electric Bond Issue in the amount of \$2,600,000, plus accrued interest of \$49,937. It is estimated that this will result in a reduction of annual debt payments of \$295,000.

CITY OF MILFORD, DELAWARE
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 14 - NEW ACCOUNTING STANDARDS

The GASB issued Statement No. 65, "Items Previously Reported as Assets and Liabilities." which became effective for fiscal year 2014. The objective of Statement No. 65 is to either properly classify certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or to recognize certain items that were previously reported as assets and liabilities as outflows of resources or inflows of resources.

The implementation of Statement No. 65 resulted in restatement of the beginning net position of the business-type activities in the government-wide financial statements and the beginning net position of the Statement of Revenues, Expenses and Changes in Fund Net Position - Proprietary Funds. Issuance costs, previously amortized over the life of the debt issuance, are now expensed at the time of issue. Retroactively applying this change results in the adjustment below (only effected funds shown):

	Government- Wide Statement of Activities Business-Type	Fund Level		
		Statement of Revenues, Expenses and Changes in Net Position - Proprietary Funds		
		Electric	Water	Sewer
Net position at June 30, 2013, as previously reported	\$44,707,573	\$21,335,010	\$12,443,098	\$ 9,322,032
Change in reporting for debt issuance costs	(215,382)	(131,745)	(23,727)	(59,910)
Net position at June 30, 2013, as restated	<u>\$44,492,191</u>	<u>\$21,203,265</u>	<u>\$12,419,371</u>	<u>\$ 9,262,122</u>

Statement No. 65 implementation also resulted in deferred charges on refunding being reclassified to Deferred Outflow of Resources instead of a reduction to the debt liability. The deferred charges continue to be amortized as interest expense over the life of the bonds.

The GASB has issued Statement No. 68, "Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27", which will become effective in fiscal 2015. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. Management has not yet determined the impact of this Statement on the financial statements.

**CITY OF MILFORD, DE
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2014**

Federal Grantor/Pass-Through Grantor/Program Program Title	Federal CFDA Number	Pass- Through Entity Identifying Number	Federal Expenditures
U.S. Department of Agriculture, Rural Utilities Service Direct Loan for Water and Waste Disposal Systems	10.760	N/A	\$ 1,008,775
Environmental Protection Agency Passed through State of DE Department of Health and Social Services Capitalization Grants for Drinking Water State Revolving Funds	66.458	51-6000177	<u>432,791</u>
Total Expenditures of Federal Awards			<u>\$ 1,441,566</u>

See accompanying notes to schedule of expenditures of federal awards.

CITY OF MILFORD, DELAWARE
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The City of Milford, DE Schedule of Expenditures of Federal Awards (Schedule) includes the activity of all federal award programs administered by the primary government

Basis of Presentation

The Schedule presents total federal awards expended for each individual federal program in accordance with OMB Circular A-133. Federal award program titles are reported in the Catalog of Federal Domestic Assistance (CFDA). Federal award programs included expenditures, pass-throughs to non-state agencies (i.e. payments to subrecipients), non-monetary assistance, and loan programs.

Basis of Accounting

The expenditures for each of the federal assistance programs are presented in the Schedule on the accounting basis as presented on the fund financial statements. For the governmental funds, expenditures are presented on the modified accrual basis. For expenditure in proprietary funds, expenditures are presented on the accrual basis. Both the modified accrual and accrual basis of accounting incorporate an estimation approach to determine the amount of expenditures incurred if not yet billed by a vendor.

NOTE 2 - RELATIONSHIP TO FEDERAL FINANCIAL REPORTS

The regulations and guidelines governing the preparation of federal financial reports vary by federal agency and among programs administered by the same agency. Accordingly, the amounts reported in the federal financial reports do not necessarily agree with the amounts reported in the accompanying Schedule which is prepared on the basis explained in Note 1 to this Schedule.

NOTE 3 - FEDERALLY FUNDED LOAN PROGRAMS

Water and Waste Disposal Systems for Rural Communities (CFDA 10.760)

In June 2013, the City issued bonds in the amount of \$5 million in connection with its Southeast Water Expansion project. The funding for the project is being provided by the United States Department of Agriculture (USDA) under the federal direct loan for water and waste disposal systems program. Under the program, the City receives proceeds from the loan only after incurring project expenditures. The balance of the loan as of June 30, 2014 is \$1,008,776, which represents total expenditures incurred on the project to date, less principal payments made. Under the terms of the note, the City is making quarterly payments of \$46,500, which include interest calculated at a rate of 2% on the balance outstanding. The agreement with the USDA also calls for the City to utilize the remaining unliquidated funds for the project by May 31, 2015.

Clean Water State Revolving Funds (CFDA 66.458)

The City receives loans from the State of Delaware by way of capitalization grants awarded to the state to create and maintain Clean Water State Revolving Funds (CWSRF) programs. The state uses the funds to provide long-term sources of financing for construction of wastewater treatment facilities and implementation of water management activities. CWSRF outstanding loans for which the related project is completed do not have continuing audit requirements.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Mayor and City Council
City of Milford
Milford, Delaware

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Milford, Delaware, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City of Milford, Delaware's basic financial statements and have issued our report thereon dated October 30, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Milford, Delaware's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of, but not for the purpose of expressing an opinion on the effectiveness of the City of Milford, Delaware's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Milford, Delaware's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of Milford, Delaware's Response to Finding

City of Milford, Delaware's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. City of Milford, Delaware's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

To the City Council
City of Milford, Delaware

Report on Compliance for Each Major Federal Program

We have audited City of Milford, Delaware's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of City of Milford, Delaware's major federal programs for the year ended June 30, 2014. City of Milford, Delaware's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of City of Milford, Delaware's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City of Milford, Delaware's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of City of Milford, Delaware's compliance.

Opinion on Each Major Federal Program

In our opinion, City of Milford, Delaware, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of City of Milford, Delaware, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City of Milford, Delaware's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City of Milford, Delaware's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Voorhees, NJ
October 30, 2014

CITY OF MILFORD, DELAWARE
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2014

SUMMARY OF AUDITOR'S RESULTS

1. The auditor's report expresses an unmodified opinion on the financial statements of the City of Milford, DE.
2. One significant deficiency disclosed during the audit of the financial statements is reported in this schedule of findings and questioned costs. No material weaknesses are reported.
3. No instances of noncompliance material to the financial statements of the City of Milford, DE, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
4. No material weaknesses in internal control over major federal award programs for the City of Milford, DE are reported.
5. The auditor's report on compliance for the major federal award programs for the City of Milford, DE expresses an unmodified opinion on all major federal programs.
6. Audit findings that are required to be reported in accordance with Section 510(a) of OMB Circular A-133 are reported in this Schedule.
7. The programs tested as major programs were:
 - U.S. Department of Agriculture, Rural Utilities Services, *Direct Loan for Water and Waste Disposal Systems*, CFDA No. 10.760.
 - Environmental Protection Agency, passed through State of DE Department of Health and Social Services, *Capitalization Grants for Drinking Water State Revolving Funds*, CFDA No. 66.458.
8. The threshold used for distinguishing between Type A and B programs was \$300,000.
9. City of Milford, DE did not qualify as a low-risk auditee.

CITY OF MILFORD, DELAWARE
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (continued)
FOR THE YEAR ENDED JUNE 30, 2014

SIGNIFICANT DEFICIENCY

Financial Statement Preparation

Condition: The City of Milford, like many governmental units, has historically relied on its auditors to draft its annual financial statements and required disclosures as part of the year-end audit process. Upon completion of audit fieldwork, management reviews and approves any adjustments made to the general ledger, and then reviews and approves the audited financial statements prior to issuance.

While the City's accounting personnel have possessed the level of skill necessary to produce the basic financial statements, they have lacked the technical expertise needed to ensure compliance with the current reporting standards promulgated by GAAP. Further, the city does not have the necessary technical reference materials and resources needed to ensure the propriety and completeness of all of the required financial disclosures applicable to its financial statements. We believe these resource limitations would limit the organization's ability to comply with the requirements as outlined and as such would be deemed an internal control deficiency with respect to the financial reporting control.

Criteria: U.S. generally accepted auditing standards require management be responsible for the preparation of an organization's financial statements and all required disclosures in accordance with U.S. generally accepted accounting principles (GAAP). Accordingly, to comply with these standards an organization must not only have accounting personnel that have the expertise in the area of financial reporting standards, but a system in place that ensures on-going training for its personnel in the area of financial reporting and the necessary reference materials or other resources to ensure compliance with financial reporting standards.

Recommendation: We acknowledge that this is an element of internal control embodied in the standards that may be difficult for some organizations to overcome. For many governmental units like the City of Milford, it has been more cost effective to rely on its auditors for this technical expertise. We recommend that the City continue to monitor the cost/benefit of this control as its operations evolve as to whether it would ever be appropriate to develop all of the internal resources necessary to remedy this condition.

Management response: We have a small and limited staff but we do provide city council monthly and year-end financial reports, as well as all budgetary reports. Our annual audited financial statements and footnotes have been outsourced to our auditors because of the cost/benefit standpoint and our auditors have direct knowledge that aids in preparing the annual audited financial statement package. Our trial balance and financial package is used for basis in preparation of the annual audited financial statement package.
