Front Street Pathway, City of Milford

Public Workshop – March 26, 2025

Welcome to the Front Street Pathway, City of Milford workshop. The goal of the project is to complete the missing sections of pedestrian/bicycle facilities to provide a continuous pathway along this corridor connecting the Plaza at Milford Shopping Center to the Milford Riverwalk. This will support regional expansion of alternative forms of transportation.

Proposed Improvements

- Install approximately 2,400 feet of an 8’ to 10’ wide concrete pathway along north side of NW Front Street and east side of N Maple Avenue. Where possible, the pathway along NW Front Street will be designed to provide a grass buffer and avoid existing utility poles.
- Construct a new midblock pedestrian crossing of Front Street next to the Parson Thorne Mansion. The crossing will include Rectangular Rapid Flashing Beacons (RRFB) to increase driver awareness.
- Improve the intersection geometry for the right turn from eastbound NW Front Street heading south on N Maple Avenue.
- Implement Americans with Disabilities Act (ADA) compliance improvements throughout the project limits.

Schedule

March 2025 - *Public Workshop* → **October 2025** – *Final Plans* → **Spring 2026** - *Construction*
